Why TMI Door Panels?

It's worth checking to know if your new Door Panel uses cardboard or masonite wood panels. Cardboard can bend easily, and may deform, especially when dampened by rain or snow. Even cleaning sprays working in around the edges can begin the deterioration process. TMI only uses masonite wood backing. Wood is the ultimate in lasting quality. Extremely rigid, durable, and unaffected by moisture, they last and look new longer!

If you demand an exact match to Factory Embossing ...your only choice is TMI. Our door panels are embossed with a tool made from the ORIGINAL Volkswagen door panel! They look great!
